

The Truth About Stalls

Stall/Spins (Loss of Control) are still one of the leading causes for injuries and worse. Come see and discuss the whys and hows, and what we can do to mitigate these risks. What change in training and evaluation is the FAA doing and what devices are available to help prevent these deadly events. Hear about the latest news about Angle of Attack (AOA) Indicators, and why you should install them in your aircraft. Rock and Rich will lead the discussions, and attendee participation is encouraged.

Directions: The meeting will be held in the Leesburg Airport Administration building is across the street from Sunair Aviation.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
